Seeds of Awareness is a heart-centered, dynamic non-profit on an exciting growth trajectory. Our mission is to transform schools and communities by cultivating awareness, empathy, and connection – in particular, in communities that have been systematically marginalized. Founded in 2012, we are a collaboration of psychologists, marriage and family therapists, school counselor clinicians, and trainers who provide counseling and mentorship programs in schools, teach social-emotional learning in the classrooms, and provide cutting edge mindfulness-based counseling and nature-based social skills groups in our local communities.

Clinicians receive weekly referrals, participate in bi-monthly training, and receive weekly supervision at our center. Currently this position is remote and therapy will be conducted via telehealth. *All applicants should be willing to eventually transition to in-person services once covid-19 risk allows for a shift in how services are conducted.*
